Christian Doctrine

GENERAL INFORMATION

ONCEPTION COLLEGE is a boarding school with High School and Collegiate departments for CATHOLIC BOYS ONLY. It was founded September 3, 1883, by Rt. Rev. Frowin Conrad, O.S.B., Abbot of Conception Monastery, and is conducted by the Benedictine Fathers. Since November 27, 1891, it is incorporated under the laws of the state of Missouri, and empowered to confer the usual academic degrees.

LOCATION—ACCESSIBILITY

Both Abbey and College are situated in the northwestern part of the state, in Nodaway County. The elevated location, on a ridge of hills rising gently from the basin of the Little Platte River, insures a choice climate for all the seasons of the year, and likewise affords excellent views of the beautiful surrounding country.

The nearest railway station is Conception Junction, on the Chicago Great Western and the Wabash. All local and fast trains stop at Conception Junction. The college has telephone connection with the railway station. Express is forwarded by the Wells-Fargo Company. Visitors should engage an auto or livery team at the railway station, two and one-half miles from the college.

BUILDINGS

The college is built of brick, trimmed with sandstone. The rooms are commodious, heated by steam and lighted with acetylene gas and electricity. Dangers of loss of life from fire

is removed by standpipe, hose and connection in each story and fireproof stairways.

The spacious study hall, with its rows of oaken desks, the neatly furnished chapel and the airy bedrooms are admired by all visitors. The basement contains large rooms for indoor recreation, a bathroom, washroom, shoeroom and toilet room. The dining room and kitchen are in a wing of the adjacent monastery. The music rooms and the society hall are also in separate buildings.

AIM OF CONCEPTION COLLEGE

Harmonious education, while providing sound mental and moral training, *must not endanger or stunt the growth of the body*. Now, a boarding school in the country is pre-eminently a place to assist the development of the body. The country air is bracy, stimulating, and has health-giving properties that are lacking in most city schools, whose playgrounds are usually small. There is also frequently a difficulty in practically occupying the leisure hours of a holiday, and many children who have a tendency to nervous disease break down or remain weakly for life, as it takes a strong constitution to bear the physical and nervous strain of city school life in our days.

The first requisite is *eminently present in Conception Collège*. There is plenty of space and playgrounds for the use of students, and an opportunity for cross-country excursions. The college is located on high ground so necessary for good drainage, and this elevated location also secures excellent ventilation. East of the college are the campus and swimming pool, with other commons and shady walks, large enough for all the students to play outdoor games at the same time. The sleeping room is so situated that it gets the rays of the sun from morning till evening; nor is there any obstruction to pure air, the second best of nature's disinfectants.

The hours for sleep, from 8:30 p. m. till 5:30 a. m., are all that can be claimed for necessary rest. Again, frequent

and regular bathing is insisted on, during both winter and summer months. Drinking water from bubbling fountains is protected against all contamination. The food is simple, but wholesome and plentiful, comprising a general diet with no fads. Good bread and butter, pure milk, eggs, meat and fresh vegetables are all supplied from our *own farm*, which is worked by the most conscientious hands—our lay brothers. The kitchen is in charge of Sisters. A member of the faculty is entrusted with the direction of athletics, and care is taken that neither the health of the students nor their studies suffer any detriment. Finally, there is an experienced physician in the college, whose duty it is to look after the hygiene of the school and the health of the pupils.

The *religious and moral spirit* of our college may be determined not only from such principles of revelation, "The lips of the priest shall keep knowledge," "You are the light of the world," "Ambassadors of Christ," but also from the avowed purpose of the foundation of the college, viz: "The fathers charged with this office (of education) should consider the religious instruction and the practice of virtue among their pupils of equal importance with the instructions in science." (Constitution, Decl. to Chap. 30). In accordance with this regulation the religious life of our students is carefully fostered not only by thorough instruction in the Catholic religion, but also by regular devotions in the chapel, attendance at High Mass in the abbey church, an annual retreat of three days, frequent reception of the Holy Sacraments—the students are encouraged to receive daily Communion—the Sodality of the Blessed Virgin Mary, the League of the Sacred Heart, the Oblates of S. Benedict, and acquaintance with the sacred ceremonies of the altar and the solemn melodies of Plain Chant. These and other factors bearing on our student, we hope to be able to send out men deserving the name "vir," possessing a character that may be depended upon in all the vicissitudes of life, because by frequent practice they have acquired the fundamental lessons of Christian-

ity: love of God and their fellowmen, justice, self-denial and truth.

It would be a great mistake, however, to think that the moral and the religious training of our students is the one exclusively attended to. The *classical course of studies*, requiring in our college *eight years for its completion*, is the best refutation for such an assumption. However, a large percentage of the students of our days take only a few years' course and afterwards learn a trade. Now, while it is a praiseworthy undertaking for parents to try to protect the faith and good morals of their sons and give them an opportunity for acquiring useful knowledge, our college is intended mainly for boys who have a calling for higher education. And this is what Catholics in America must have in order to take the lead in professional life.

Finally, only a limited number of students is admitted every year, in order to enable the professors to devote the greater part of every day to the singing of the praises of the Most High and to give to the individual student undivided attention as everyone's proficiency may require.

GENERAL REGULATIONS

The scholastic year consists of two sessions. The first begins during the first week in September and ends the last day of January. The second begins on the third day of February and ends about the middle of June. Written and oral examinations are held at the end of either session; after each examination reports of the student's conduct and progress are sent to his parents or guardian. The school year begins with a Solemn High Mass to invoke the blessing of God, and ends with another in thanksgiving for the favors received during the scholastic year.

Experience teaches that those students who are present at the beginning of the year show the most uniform and most satisfactory progress. It is therefore the earnest wish of the faculty that the parents send their sons for the first day of

CONCEPTION, MISSOURI

the school year, and let them remain to its end. Every new applicant is subjected to an examination and afterwards assigned to the class for which his proficiency qualifies him. Students coming from other institutions must present certificates testifying to their good moral character and their last class report. *All others must enclose with their application a letter of introduction from their parish priest, without which no application will receive any attention.* Nor do we take students for a shorter period than a session of five months. Furthermore, to insure uniformity of textbooks, students should buy them from our stationer or from senior students.

During Christmas holidays, those students who can conveniently visit home may do so, but must return promptly for resumption of classes. Willful disregard of this regulation debars pupils from re-admission to college. During Easter holidays classes are suspended, but students are not permitted to absent themselves for visits. *During summer vacation, no students are kept at the college, or admitted before date of opening.*

Every student must be provided with at least two suits of clothes, a sufficient number of socks or stockings, shirts, nightgowns, summer and winter underwear, collars, neckties, handkerchiefs, towels, napkins, shoes, brushes, combs and other toilet articles. For service in church students wear a black cassock and surplice which they must provide at their own expense. *All laundry goods must have been plainly marked with the owner's name in full, as the college authorities will not be responsible for unmarked laundry articles.* Address J. & J. Cash Co., S. Norwalk, Conn.

MORAL TRAINING

Students should at all times be obedient and respectful to the officers and professors of the college, and also observe habitual politeness toward one another. They must be where duty demands their presence, viz.: during the study or recitation hours, in the study hall or the class rooms; during recess

or recreation hours in the recreation rooms or on the playgrounds.

Strict silence is to be observed at all times in the bedroom, toilet room, and on the way to or from any daily exercise; during study and recitation hours in the study hall, class rooms and the corridors. The same spirit of silence should banish from the college noisy plays, all running, shouting or whistling. The college authorities always demand of students scrupulous cleanliness in all apartments and premises. For any damage done to college property the respective student is held responsible, and he is always expected to inform the authorities of the damage before being called to account by them.

Students are forbidden to retain money in their possession. Spending money must be deposited with Fr. Rector on the day of admission. The weekly allowance depends on the direction of the parents. Students are also forbidden to lend, borrow, exchange or sell personal effects. Whenever a student becomes aware of the loss of any article, he should at once notify Fr. Rector; late information may be useless.

Articles of clothing must be kept in the clothes room; they will be tolerated in the bedroom only on days when wash is sent away or returned. The students have access to a select library, including various magazines and newspapers. Parents are, therefore, requested to send their sons no newspapers; clippings, however, containing local items of special interest, may be enclosed in letters. Books, periodicals, pamphlets, etc., against sound morals, are not only confiscated, but subject the possessor and owner to punishment.

Except for urgent reasons, approved by Fr. Rector, letters should be written only on the weekly half-holiday or on Sundays. All mail and express matter of the students is subject to inspection. Students failing to comply with this rule may be dismissed. Correspondence with students who have been dismissed or have left the institution in bad standing is positively prohibited.

Strict obedience, assiduous application to studies and

blameless conduct are required from all students. Any serious transgression of these rules renders the offender subject to effective correction, and even to dismissal, if this is considered necessary. Accordingly, students who are found to exert a bad influence, those who habitually disregard the rules of the college, excite and promote a spirit of discontent and insubordination, or are incorrigibly idle are liable to dismissal. Students who are found to be rude, vulgar or immodest in their conversation or habits, and despite repeated admonition manifest no improvement, will be forthwith dismissed without certificate of conduct. The students are separated into two divisions—senior and junior. Familiarity between older and younger students will not be tolerated.

The use of tobacco in whatever form is forbidden. But when a habit of smoking has been previously contracted, in order to prevent greater evils we grant permission to smoke at certain specified times and under proper restrictions to *students who have completed their sixteenth year of age and can furnish in writing the consent of their parents or guardians.* Smoking of cigarettes and chewing of tobacco is always prohibited. The use or introduction of intoxicants is forbidden under pain of expulsion. Firearms are likewise prohibited.

Eatables may be sent to students for Thanksgiving, during the Christmas and Easter holidays, but in *moderate* quantities.

During visits of parents or relatives students are not excused from class or study hours and other common exercises. We, therefore, urgently request that such visits be restricted to holidays; likewise, that parents, at no time of the school year, seek leave of absence for their sons, except for the most urgent reasons.

RULES FOR DAY SCHOLARS

Day scholars must be at the college at 7:45 a. m. for high mass and at 1:30 p. m. for studies. In case of absence or tardiness they must furnish in writing an excuse signed by their parents or guardian. Frequent absence or tardiness, except for illness, as well as neglect to prepare lessons or exercises, is considered a sufficient cause for dismissal.

Two or three hour of study being required daily for the proper preparation of their lessons, parents are requested to insist on their sons faithfully performing this duty. If they fail to insist on study at home and regular attendance, progress is impossible.

Day scholars who serve as messengers or introduce articles not permitted to boarders, or in any other way assist them in violating the rules of the college, will be dismissed on being convicted of the offense. The same applies to students who are guilty of disorderly conduct outside of the college premises.

Without permission they should not bring visitors to the college or the grounds.

NOTICE TO STUDENTS APPLYING FOR ADMISSION

Please answer the following items in your handwriting and mail to the Rev. Rector:

- Date.....
- Name in full.....
- Day, year and place of birth.....
- Name and address of parents.....
- Schools formerly attended.....
- Last report or credit card.

MARKS, MEDALS, PROMOTIONS, DIPLOMAS AND DEGREES

MARKS

The student's proficiency and rank are determined according to the following scale:

Very Good.	90—100
Good.	80— 90
Satisfactory.	70— 80
Deficient.	64— 69
Unsatisfactory.	Below 64

MEDALS

Medals are awarded at the closing exercises to deserving students who are present. No medals are given for marks below 90; honorable mention, however, is made of students whose mark is from 85—90. Students coming after the formal opening of the school or failing to secure the grade "Good" in Conduct or Application, or those who do not take all branches of study are excluded from competition for medals.

PROMOTION

The note "Satisfactory" in all primary branches is required for promotion.

Christian Doctrine, English, Latin, Greek and Mathematics are considered the primary studies.

Three factors decide the promotion of students: . The pupil's record in school, the result of his written examination and his standing in the oral test. The passing mark in all three is "Satisfactory." High standing in some subjects, however, may atone for slight deficiencies in others; but no pupil will be passed who is deficient in English or both the classical languages. "Deficient" in one of the classical languages may be offset by a standing of at least "Good" in the other ancient

Payment is to be made in advance for a session of five months. A reduction of five per cent is granted to those who pay the entire sum for board and tuition in advance, or who have two sons attending college at the same time. No allowance will be made nor money refunded for partial absence or withdrawal before end of the session, except on account of protracted sickness or dismissal. No money is advanced by the college for clothes or other incidentals; therefore a sufficient sum must be deposited with the treasurer. Books, stationery, toilet articles, etc., may be bought at the college at current prices. No books are returnable.

All remittances are to be made payable to "*Conception College, Conception, Mo.*" For checks on country banks add extra fee for collection.

Parents who wish to withdraw their sons before the end of the season must give timely notice, pay all accounts, and forward the necessary traveling money. All bills must be paid before a student departs, whether he leaves during or at the end of the session.

No diploma or credits are issued until all indebtedness has been paid.

SCHOLARSHIPS

The funds donated by generous benefactors enable the faculty to offer four scholarships to the successful competitors. The student obtaining such scholarship gets board and tuition free of charge, but must defray all other incidental expenses.

Conditions for obtaining a scholarship :

1. The competitor must have completed the first academic class with honors.
2. The applicant, after passing the required examinations, must present his petition in writing to the Rt. Rev. President of the college.
3. The holder of a scholarship must always show himself worthy of the privilege by good conduct and regular application to studies.

Letters of inquiry should be addressed to

THE REV. RECTOR,

Conception College,

Conception, Mo.

COURSE OF STUDIES

THE CLASSICAL COURSE, the one pursued in our college, consists of two departments, viz: the Academic or High School, and the Collegiate. Either is completed in four years, and comprises the Latin, Greek, English and German languages and their literature, the Doctrines and Evidences of Religion, Mental and Moral Philosophy, Astronomy, Physics, Chemistry, Mathematics, Rhetoric, Composition, Elocution, History, Geography and Arithmetic. This course alone gives a thorough scientific and literary education, and thus opens the way to the subsequent successful study of Theology, Law or Medicine. The Academic department is a Classical High School in which the studies have been so arranged as to offer a thorough preparation for entrance to a classical college. These studies are all prescribed, including Latin, Greek, English, History, Mathematics, Science, and one Modern Language. The school does not undertake to instruct boys in the forms and methods of business or technical branches, but prepares them to pursue these or professional studies with success.

The course adopted by the college is not elective but obligatory for all students. In rare cases only may a student be excused from any branch. Optional studies are drawing, painting, bookkeeping, shorthand, typewriting and instrumental music. Optional studies may be pursued, provided the respective student has passing grades in all obligatory branches.

The preparatory class is maintained for such pupils as are not sufficiently advanced to enter the High School department, but may be prepared for it within the space of one

year. Applicants for this class must have completed the seventh grade of a parochial or public school. *Others, not so far advanced, can not be received*, as we do not maintain a minim's department.

REQUIREMENTS OF ADMISSION

Students applying for First High School Class are supposed to be well grounded in Elementary English, Arithmetic, Geography and United States History, and must pass written tests in the following branches:

I. ENGLISH.

1. English Grammar: The common use of capitals; parts of speech, declension and conjunction; sentence structure; classification of sentences.
2. Reading: One or more paragraphs, new to the applicant, are to be read at sight; distinct articulation, accurate and fluent pronunciation, understanding of the author's meaning, and oral reproduction of the passages read, will determine the applicant's admission.
3. Practical exercises, consisting of dictation or reproduction of easy selections from standard authors, letter-writing and common business forms.
4. Spelling.

II. ARITHMETIC.

The fundamental operations; multiples, measures and factors; fractions, common and decimal; denominate numbers and practical measurement; ratio and proportion, simple problems.

III. GEOGRAPHY.

The political division of the continent, their capitals, chief cities, form of government and population, their industry, especially of North America and the United States.

IV. HISTORY.

The principal events of the History of the United States.

Students applying for first collegiate class must have mastered the following branches and be able to pass a creditable written test before entering:

Latin.

- a. Prose Composition—Ability to translate English prose into idiomatic Latin.
- b. Authors—First year: Viri Romae; second year, Nepos or equivalent; third year, Caesar, Cicero's Letters or equivalent; fourth year, Sallust, Cicero's De Senectute or equivalent.

Greek.

- a. Prose Composition—Ability to translate easy English into idiomatic Greek.
- b. Authors—First year, Greek Reader; second year, Anthology or equivalent; third year, Xenophon, Anabasis, Cyropaedia or equivalent.

English.

- a. Rhetoric.
- b. A brief prose composition.
- c. Literature—An account of the authors usually read in high schools.

Mathematics.

Algebra, completed. Geometry, Plain and Solid.

History.

- a. History of America.
- 2b. Ancient, Mediaeval and Modern, General Knowledge.

Science.

- a. Physiography.
- b. Elementary Physics and Chemistry.
- c. Botany, Zoology and Physiology.

Modern Languages—German or French.

- a. Ability to translate simple English prose into correct German or French.
- b. Authors—First year, Primer; second year, Elementary; third year, Intermediate German or French.

NOTE—Hebrew may be substituted for Mathematics in third and fourth Collegiate.

COLLEGIATE DEPARTMENT

IV. COLLEGIATE (Senior)

Philosophy—Elementa Philosophiæ, auctore Josepho Gredt, O.S.B., Cosmoslogia, Theodicea, Ethica.

History of Philosophy—Turner.

Latin—Tacitus, or Church Fathers.

Greek—Sophocles, Euripides, or Church Fathers.

Hebrew—Grammar, complete. Selections from Genesis and Psalms.

Physics—Mann & Twiss. Mechanics, Heat, Electricity, Wave motion, Sound, Light.

Laboratory Manual: Mann & Twiss.

Astronomy—Young's Manual. General Astronomy, Fundamental problems, Earth, Sun, Moon, Eclipses, Planets, Comets, Meteors, Stars, Clusters, Nebulæ, Cosmogeny, Ecclesiastical Calendar.

Laboratory Manual: Mang's Introduction to Astronomical Geography.

Mathematics—W. A. Granville's Differential and Integral Calculus. Numbers, Variables and Functions, Theory of Limits, Differentiation, Maxima and Minima, Differentials, Rates, Change of Variable, Curvature, Theorem of Mean Value, Indeterminate Forms, Partial Differentiation, Envelopes, Series, Expansion of Functions, Curve Tracing, Integration, Quadrature, Cubature, Differential Equations.

III. COLLEGIATE (Junior)

Philosophy—Elementa Philosophiæ, auctore Josepho Gredt, O.S.B., Psychologia, Logica, Metaphysica.

Readings from Newman and Classic Philosophers.

Latin—Cicero, Philosophical works.

CONCEPTION, MISSOURI

Greek—Plato, *Apology*, *Crito* or *Phædo*.

Hebrew—Grammar by Wm. H. Green.

Chemistry—A. Smith's *General Chemistry for Colleges*. General Characteristics of Chemical Phenomena, Non-Metals, History, Preparation, etc., Kinetic-Molecular Hypothesis, Molecular and Atomic Weights, Constitution of Acids, Bases, Salts, Chemical Equilibrium, the Metallic Elements, Ionization, Precipitation, Periodic System.
Organic Chemistry: I. Remsen's.
Laboratory Manual: A. Smith's and W. J. Hale's *Outlines of General Chemistry*.

Mathematics—Analytic Geometry, Wentworth's.

II. COLLEGIATE (Sophomore)

Christian Doctrine—Wilmer's *Handbook*, Part I and II. Revelation, Pre-Christian and Christian; The Church, Its Institution, End, Constitution, Marks; The Teaching Office of the Church, Existence, Nature of God, the Trinity, the Creation and Redemption of Man.

Latin—Precepts and Practice: Arnold-Bradley; other exercises based on models; original compositions.

Models: Cicero, *Pro Lege Manilia*, *pro Marcello*, *pro Ligario*. Horace, *Odes*, *Epodes*, *Satires* and *Ars Poetica*.

Greek—Precepts: Kaegi's *Grammar*, review.

Practice: Kaegi's *Exercises*.

Models: Demosthenes, 3 *Olynthiacs*. Homer, *Iliad*, Book 1, 2 and 3.

English—Precepts: Nature, laws and types of oratory, according to J. F. X. O'Connor's *Rhetoric and Oratory*, supplemented by lectures of professor and readings from Shepard's "Before an Audience."

Practice: Frequent themes in writing, oral reproduction

of standard orations, only the circumstances of the respective speech being first delineated by the professor.

Authors: Livy, Lysias, St. John Chrysostom, the great English orators and modern American speakers.

Literature—Jenkins, Orators, Essayists, Historians.

Algebra—Brenke's Advanced Algebra and Trigonometry. Infinite Series, Functions, Derivatives, Maclaurin's Series, Computations, Approximations, Differences and Interpolations, Undertermined Coefficients, Partial Fractions, Determinants, Polar Coordinates, Complex Numbers, De-Moivre's Theorem, Exponential Values of $\sin X$ and $\cos X$, Hyperbolic Functions, Permutations, Combinations, Chance, Theory of Equations.

Bookkeeping—Rev. D. J. Kaib, O.S.B., Bookkeeping for Parish Priests.

German—Deutsche Literaturgeschichte; monatlich ein groesserer Aufsatz.

Lektuere: Goethe, Iphigonie; Grillparzer, Der Traum ein Leben; Schiller, Maria Stuart, Willhelm Tell, Wallenstein.

I. COLLEGIATE (Freshman)

Christian Doctrine—Wilmer's Handbook, Part III, Christian Morals in General, Christian Duties Towards God, Ourselves and Our Neighbors. Christian Perfection.

Latin—Precepts and Practice: Arnold-Bradley.

Models: Cicero, In Catilinam 4., Pro Marcello, pro Ligario. Vergil, Books 2 and 6.

Greek—Precepts: Kaegi's Grammar, complete.

Practice: Kaegi's Exercises; test exercises.

Models: Xenophon, Cyropaidea, Books 1 and 7. Homer, Iliad, Books 1 and 2.

CONCEPTION, MISSOURI

English—Precepts: Connell's—A Study of Poetry—Complete.

Practice: Analysis of masterpieces and original compositions.

Authors for class study and supplementary reading: Dante, *The Inferno*; Milton, *Paradise Lost*; Tennyson, *Selections*; Shakespeare, *Othello*, *Hamlet*, *the Tempest*, *Macbeth*, *Richard III*, *King Lear*; Wordsworth, *The Prelude*; Palgrave, *The Golden Treasury*, *Selections*.

Literature—Jenkins' *The Poets from Chaucer to Tennyson*.

Algebra—W. C. Brenke's *Advanced Algebra and Trigonometry*. Involution, Evolution, Theory of Exponents, Surds and Imaginaries, Logarithms, Binomial Theorem, Linear Equations, Quadratic Equations, Proportion, Variation, Progressions, Interest and Annuities, The Trigonometric Functions, Functions of several Angles, Inverse Functions, Trigonometric Equations, Oblique Plane Triangles, Spherical Trigonometry, Applications to the Terrestrial and Celestial Spheres.

German—Wiederholung der Syntax; Wöchentliche Aufsätze.

Lektüre: Schiller's Balladen.

ACADEMIC DEPARTMENT

IV. ACADEMIC

Christian Doctrine—Deharbe's Full Catechism: Part III. Means of Grace, Grace of Assistance, Grace of Sanctification, The Sacraments, The Sacramentals, Prayer, Ceremonies.

Latin—Precepts: Bennett's Grammar reviewed.

Practice: Arnold-Bradley, *Prose Composition*; test exercises.

Models: Sallust, *Bellum Catilinae*. Ovid, *Phaeton*, *The Four Ages*.

Practice: Kaegi's Exercises; test exercises.

Models: Xenophon, *Anabasis* I.

English—Precepts: Rhetoric, Scott and Denney. Exposition and Argumentation, Poetry, Figures of Speech.

LAVATORY

LABORATORY

PREPARATORY CLASS

Christian Doctrine—Catechism, Rev. W. Faerber.

Bible History—Old Testament, Rev. P. Cummins, O.S.B.

English—Precepts. Webster's English Grammar.

Practice: Compositions on familiar subjects, letter writing; Spelling, oral or written.

Models: Gilmour's Fifth Reader.

Arithmetic—Milne's Standard, to General Review.

History—Lawler's Essentials of American History.

Period of Discovery, Colonization, The Revolution, Union Disunion and Reunion.

Geography—Roddy's complete. Political and Mathematical Geography. Continents: Western, Eastern, Australian. Location of countries, states, capitals and principal cities, rivers and mountain ranges. Climate, industries, science, government and religion. Supplementary reading.

Penmanship—The Palmer Method of Business Writing, complete.

Drawing—Elementary.

OPTIONAL STUDIES

MUSIC

VOCAL

All students who show talent for music receive instructions in singing twice a week, free of charge. They are present at High Mass on feast days and at Vespers on Sundays and Feasts of Obligation. On these occasions they assist the regular choir of the monks in the rendition of Gregorian chant and sacred polyphony.

INSTRUMENTAL

Lessons on all musical instruments and practice time allotted to students are periods of 45 minutes each. The music lessons begin October 1st and end June 1st. Only the latest improved methods and materials are employed.

DRAWING AND PAINTING

The lessons include free hand outline of landscapes, animals, ornaments, parts of the human head, whole heads with and without shading, drawing from cast models and photographs.

Painting (in aquarell and oil) of ornaments, heads, whole figures, etc., also practical exercises in original sketches and compositions.

SHORTHAND AND TYPEWRITING

For Typewriting we use the Underwood machine; for Shorthand, Gregg's system.

BOOKKEEPING

Optional for students of third or fourth Academic. Williams and Roger's Series.

SOCIETIES

RELIGIOUS

THE OBLATES OF ST. BENEDICT

Cosimo de Medici, the great duke of Tuscany, when asked why he was accustomed to read the Holy Rule so persistently, replied that its sagacious regulations gave him the best guidance in promoting the welfare of his people. This fundamental suitableness of the Rule for Christians living in the world gave rise to the Oblates of St. Benedict. Twenty years is the age prescribed for admission. A privilege of Pope Pius X. allows us to receive students of good character at the early age of fourteen.

THE SODALITY OF THE BLESSED VIRGIN

was organized in 1887. Its aim is to foster in the members a very special devotion to the ever Bl. Mother of our Lord, and with her aid to help sodalists to lead a fervent Catholic life and die a happy death.

The means employed for this end are: Weekly recitation of the office of the Immaculate Conception, frequent reception of the holy sacraments, special instructions and exhortations, the exercise of works of piety, mercy and zeal among their fellow students, and finally a high standard of good conduct.

Students who have been received into the sodality in other colleges and wish to be admitted as active members into our sodality, must present a testimonial of their reception; the officers will then decide on the affiliation of the applicant.

THE ALUMNI ASSOCIATION

The Alumni Association was formed September 14, 1906, on the occasion of the fiftieth anniversary of the ordination of the Rt. Rev. Frowin Conrad, O. S. B., the founder of the college. The object of the association is to foster the bonds of friendship among all those who as boys bore the distinction of being students of Conception College, to promote higher education and to encourage vocations to the holy priesthood. Any student who spent one year in the college and has left in good standing is eligible to membership.

The fifth regular meeting was held at the college May 10, 1916.

The following are the officers of the association:

Rev. L. G. Kipping, Granite City, Ill.....	President
M. Leo Leahy, Kansas City.....	Vice President
Rev. Sylvester Lehmen, O. S. B., Conception, Mo.....	
.....	Secretary and Treasurer
Rev. Stephen Schappler, O. S. B., Conception, Mo.....	
.....	Assistant Secretary and Treasurer

On December 28, 1914, a branch of the Alumni Association, known as the Kansas City Chapter, was formed in Kansas City, Mo. The officers of the chapter are:

Rev. J. W. Keyes.....	President
Mr. Mat Lysaught.....	Vice President
Mr. M. Leo Leahy.....	Secretary and Treasurer

MEDALS AND DISTINCTIONS

The order of enumeration is according to merit—100 is required for medals, 98 per cent for distinction.

The Gold Medal

for Uniform Good Conduct among the Seniors was awarded to

LEO FRANKEN.

Merited ex aequo by

J. MINES AND J. HERBER.

Distinguished for Good Conduct were the following: R. Eck, Ig. Lammers, J. Meyerpeter, L. Ruggie, J. Hausmann, W. Kaschmitter, L. Clavin, A. Rettenmaier, Ig. Lehmen, J. Berger, E. Graham, B. Westermann, O. Thuerlemann, P. Carbin, F. Nacke.

The Gold Medal

for Uniform Good Conduct among the Juniors was awarded to

EDWARD TOBIN.

Merited ex aequo by

W. CORDES.

Distinguished for Good Conduct were the following: J. Allen, J. Gripke, P. Ernesti, O. Blaes, J. Voss.

The Gold Medal

for Application to Studies among the Seniors was awarded to

ALBERT RETTENMAIER.

Distinguished for Application to Studies were the following: R. Eck, R. Grow, J. Berger, J. Blaes, C. Wagner, B. Westermann, O. Thuerlemann.

CONCEPTION, MISSOURI

The Gold Medal

for Application to Studies among the Juniors was awarded to

JOHN ALLEN.

Merited ex aequo by

J. GRIPKE.

Distinguished for Application to Studies was O. Blaes.

CLASS AWARDS

The order of enumeration is according to class standing at the end of the school year; the highest general average entitles to the medal, 85 per cent and above to distinction.

St. Joseph's Academy

Clyde, Missouri

Conducted by the Benedictine Sisters
For Young Ladies and Girls

This Academy is situated one mile north of Conception College, on an extensive tract of land secluded from all distracting influences and conducted on the safe principles of a thorough Christian education.

Parents or guardians whose sons or wards attend Conception College, will see the convenience in placing their daughters in St. Joseph's Academy.

For catalogue and other information address,

THE SISTER DIRECTRESS,

St. Joseph's Academy,

Clyde, Mo.
